Professional Summary

Full Stack Developer specializing in MERN stack development with hands-on experience in building scalable web applications, RESTful APIs, authentication systems, and responsive user interfaces. Skilled in React.js, Node.js, Express.js, MongoDB, PostgreSQL, and modern frontend tooling. Strong understanding of frontend and backend architecture, API integration, JWT authentication, database management, and workflow automation with focus on clean, maintainable, and performance-oriented code.

Education

Bachelor of Computer Applications (BCA) <i>MDSU (Maharshi Dayanand Saraswati University), Rajasthan</i>	2023 – Present
Full Stack Development Program <i>Red and White Skill Education, Rajasthan</i>	2025 – Present

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+)
Frontend: React.js, Redux, Tailwind CSS, Bootstrap, Material UI, React Router
Backend: Node.js, Express.js, REST APIs, JWT Authentication, bcrypt, Socket.IO, MVC Architecture
Database: MongoDB, PostgreSQL, Mongoose
Tools & Platforms: Git, GitHub, Postman, VS Code, Vite, Webpack, n8n
Deployment: Vercel, Netlify, Render
Concepts: CRUD Operations, API Integration, Authentication, Responsive Design, Workflow Automation

Projects

Job Finder Portal | [Live Demo](#) | [GitHub](#) 2026
MERN Stack, Tailwind CSS, JWT Authentication, REST APIs

- Developed a full-stack job portal enabling users to search, view, and apply for jobs through a responsive interface.
- Integrated JWT authentication and bcrypt password hashing for secure login and registration functionality.
- Protected frontend and backend routes using authentication middleware and role-based authorization.
- Implemented dynamic search, category-based filtering, and API integration using Axios and React Hooks.
- Managed backend data using MongoDB and Mongoose for efficient CRUD operations.

Student Management System | [Live Demo](#) | [GitHub](#) 2025
MERN Stack, JWT Authentication, REST APIs, MongoDB

- Engineered a role-based full-stack platform with dedicated dashboards for Admin, Teacher, and Student users.
- Enabled administrators to manage courses, assign teachers and students, and monitor platform activities.
- Developed teacher functionalities for attendance management, marks uploading, and project assignment handling.
- Designed student dashboards to track attendance, access course details, view marks, and submit projects.
- Built secure RESTful APIs and implemented JWT authentication for protected data communication.
- Optimized MongoDB schema structure for efficient handling of users, courses, attendance, marks, and projects.

Personal Portfolio Website | [Live Demo](#) | [GitHub](#) 2026
React.js, Tailwind CSS, JavaScript

- Created a modern portfolio website to showcase projects, technical skills, and development experience.
- Developed responsive layouts and smooth navigation using React Router and reusable React components.
- Styled the user interface using Tailwind CSS with mobile-friendly and cross-device compatible design.
- Configured a contact form with client-side validation for improved user interaction.

Achievements

- Participated in the WebHack Competition organized by Red and White Skill Education and received a Certificate of Participation.
- Developed multiple MERN stack applications featuring authentication systems, REST APIs, CRUD operations, and role-based access control.
- Built scalable frontend interfaces using reusable React components and responsive design principles.
